

Future of Science - Student Conference & Lab Open Day 2022

We would love to invite you and your A-Level Science students to our first annual Laboratory Open Day and Conference!

When: Monday 17th October (9.30am – 2.30pm)
Where: Sci Tech Daresbury, Keckwick Lane, Daresbury, Warrington WA4 4FS.

Join us for our first Future of Science conference! This event will allow students to learn more about futureproofing their scientific careers using new-approach methodologies.

- Talks and Q&A sessions with leading researchers and scientists in the field.
- An exclusive tour of XCellR8's animal-free laboratory. XCellR8 are an award-winning Cheshire-based laboratory, founded in 2008.
- A unique opportunity for students to learn more about the future of science and listen to the expertise of prominent scientists.

We anticipate demand for places to significantly exceed capacity, so please let us know if you are interested in signing up for this event. There is no charge to attend the conference

MAIN SPEAKERS:

Dr Adrian Biddle of the Blizard Institute

Senior Lecturer at Queen Mary, University of London. Dr Biddle is interested in producing better treatments for cancer and replacing animals in cancer research.

Dr Rosalind Hannen of Queen Mary, University of London

Lecturer at Queen Mary, University of London. Dr Hannen is dedicated to creating advanced human skin models to tackle the hardest challenges in dermatology. Dr Hannen is Founder & CEO at Keratify, a multi-award-winning bioengineering company.

Dr Carol Treasure of XCellR8

Co-founder of XCellR8, Dr Treasure's role as the Managing Director spans both the scientific and commercial aspects of the company - XCellR8 is a pioneer in completely animal-free scientific research. XCellR8's innovative and cutting-edge approach was rewarded in 2013, when they won the Lush Prize for training.

Dr Chloe Raffelli of Lush

Toxicologist and Safety Advisor for Lush. Dr Raffelli will discuss the commercial importance of non-animal safety testing to Lush internationally, and the potential for growth in this area.

Throughout the day there will be many opportunities for questions and for students to chat directly to the speakers. All attendees will have a laboratory tour and receive a goody bag!
